

Remarks:

Reconsideration of the application in view of the above amendments and following remarks is requested. Claims 12 and 14 are now in the case. Applicants have amended claim 12.

Applicants assert that the present amendment adds no new matter to the application as originally filed. Basis for the amendment to claim 12 can be found in the application as originally filed, see e.g., page 29, lines 3-9; Example 3 starting on page 85 and Example 4 starting on page 86.

I. Rejection under 35 U.S.C. §112, first paragraph

The Examiner has maintained the rejection of claims 12 and 14 under 35 U.S.C. §112, first paragraph as lacking enablement.

As the Examiner has suggested, Applicants have amended claim 12 to recite specific highly stringent hybridization wash conditions.

Also, as the Examiner has suggested, Applicants have amended claim 12 to recite that the sample "contains CD3+ T cells".

Consequently, Applicants respectfully submit that the present claims are enabled, and request that the present rejection be properly withdrawn.

II. Conclusion

On the basis of the above amendments and remarks, Applicants believe that each rejection has been addressed and overcome. Reconsideration of the application and its allowance are requested. If for any reason the Examiner feels that a telephone conference would expedite prosecution of the application, the Examiner is invited to telephone the undersigned at (206) 434-3410.

The fee for the one month extension of time will be paid online via EFS. It is believed that no other fee is due; however, in the event that a fee is due, please charge any fee or credit any overpayment to Deposit Account No. 26-0290.
